

Industrial Engineering Program :

Industrial Engineering Program at Andalas University was established in 1994 as a concentration in Mechanical Engineering Program. In 1996, the Industrial Engineering program officially started as one program of study in Engineering Faculty. IE has been accredited three times by the National Accreditation Board for Higher Education in Indonesia and for the latest result of accreditation that were announced on October 31, 2015, IE got a score of 365 (range 0-400) and therefore eligible for grade “**A**” (highest rank).

Industrial Engineering program is the program which is concerned with the design, improvement and installation of integrated systems of people, materials, information, equipment and energy. It draws upon specialized knowledge and skill in the mathematical, physical, and social sciences together with the principles and methods of engineering analysis and design, to specify, predict, and evaluate the results to be obtained from such systems.

"IE Program is to be an internationally recognized program".
